To: Budget and Program Committee Members - San Joaquin Valley Drainage  
Implementation Program

From: Manucher Alemi, SJVDIP Coordinator 

Subject: CALFED Water Quality Actions Review

CALFED staff are in the process of developing a water quality program which would be common to the three Delta alternatives currently under consideration by CALFED. SJVDIP has an opportunity to provide input to the process toward our common goal of improving drainage conditions and water quality in the San Joaquin River Basin. Enclosed are two documents for your review (*Draft Plan for Analysis of Proposed Water Quality Actions* and *Ranking of Water Quality Actions*) that CALFED staff distributed at its Water Quality Technical Work Group meeting on November 20. I have scheduled a conference call for Friday, December 6, from 1-2 p.m. to discuss and develop comments for CALFED. To participate in the conference call, please call (916) 657-4111 at exactly 1 p.m.

According to CALFED's Water Quality Program Manager Rick Woodard, the Work Group will meet again on December 9 to review these documents. I encourage all of you to attend the December 9 meeting. For the time and place, call Mr. Woodard at (916) 653-5422.

If you have any questions, please call me at (916) 327-1630.
